

The Music Therapy Charity

Final Report

Now I have come to the end of the course and am ready to begin working as a professional music therapist, I wish to express my profound gratitude for receiving the MTC bursary. This financial contribution has enabled me to concentrate on my learning, to develop my understanding of the theory and practice of music therapy and, most importantly, it has provided me with the peace of mind I need in order to be my best for the amazing clients I have had the privilege of working with.

Since graduating I am thrilled to have secured a position of employment as a music therapist in a school, where I will be working with young people with special needs. My experiences on the course and on placement have equipped me with the essential tools I need to move forward in my professional career and be of service to people, which is my central aspiration in life. My educational journey would not have been as fulfilling without the incredible support of my tutors and my fellow course mates who continue to inspire me today. In receiving this bursary, I have been released of the financial burdens which otherwise would have made it very difficult for me to afford the course. Your generosity has made such a difference to my journey and I will always remember this gift.

Yours Sincerely,
